GREAT COFFEE MORE CHOICES

Egro Zero+ is the ideal fully automatic coffee machine for all those locations with medium-low daily consumptions. It dispenses top quality beverages made from coffee, milk or soluble powders and manages to compact Egro-branded technology in just 33 centimeters. It is user-friendly, easy to clean, highly reliable and equipped with an innovative milk system. Recommended for daily outputs up to 150 cups, Egro Zero+ is designed to satisfy the various requirements of offices, self-service facilities, bakeries, retail stores and refreshment areas and is available in 3 versions: Pure Coffee, Quick Milk, Quick Milk PRO.

RECOMMENDED DAILY OUTPUT:

x150

CUPS PER DAY

HIGHLIGHTS

1

COFFEE

Swiss coffee technology

The latest Egro coffee technologies and long-lasting components, for top-quality coffee and a perfect milk foam for all milk-based beverages.

2

INTERFACE

Touch-pad

8-button user interface, 16 products ready to brew plus hot water and steam.

3

DESIGN

Space-saving design

Egro technology in just 33 cm width.

4

ADD-ONS

Add-ons for your business

Maximum flexibility and a wide portfolio of add-ons to personalise your products according to your business needs.

5

CLEANING

EASY TO CLEAN

Easy step-by-step daily cleaning program and water rinsing cycles.

SWISS COFFEE TECHNOLOGY

STAINLESS STEEL BREWING UNIT

The stainless steel brewing group with its 18 grams brew chamber capacity allows to brew delicious beverages out of all coffee blends or single origins.

STAINLESS STEEL FLAT BURRS

The stainless steel grinders ensure quality and precision, to consistently dispense the right amount of coffee for the beverage requested.

64 mm

BURRS DIAMETER

BEAN HOPPER

0.6 kg/1.3 lb

BEAN HOPPER CAPACITY

BUILT-IN POWDER HOPPER

The built-in powder hoppers are the ideal solution for chocolate and all the other soluble products.

2x

1.3 l

POWDER HOPPER CAPACITY

DUAL BOILER TECHNOLOGY

Two separate boilers for coffee preparation and steam.

0.5 l/16.9 oz

COFFEE BOILER CAPACITY

0.5 l/16.9 oz

STEAM BOILER CAPACITY

STEAM, WATER & MILK

⊕ STEAM ----- WATER -----

STEAM WAND

Manual steel steam wand.

WATER WAND

The separate water wand is extendable to suit all the operator's needs and it is possible to deliver water while brewing coffee.

⊕ MILK -----

QUICK MILK PRO

For those locations offering a wide variety of milk-based beverages on their menu, Egoro LAB has developed Egoro Zero+ Quick Milk PRO, a version fitted with an innovative milk system.

Thanks to the new pump module, located inside the fridge, the Quick Milk PRO ensures top quality milk-based drinks, allowing to adjust milk temperature and frothing levels for each beverage.

⊕ EXTRA-LARGE -----

EXTRA-LARGE COFFEE-BASED BEVERAGES

The volumetric pump on the Egoro Zero+ is perfect for the rapid and non-stop preparation of all Extra-Large coffee-based beverages.

SMART INTERFACE

INTERFACE

The Ego Zero+ menu enables the configuration and setting of 16 different beverages plus hot water and steam. It is possible to personalize the label and the description of each beverage.

THREE ACCESS LEVELS

Three dedicated menus offer baristas, managers and technicians the best user experience for their needs.

SELF-SERVICE MODE

Customers can prepare one drink at a time on their own, without the support of the staff.

BACKLIT TOUCHPAD

The user interface is intuitive and equipped with a backlit touchpad.

CLEANING & MAINTENANCE

CLEANING

Fast and simple cleaning makes it easy to uphold high health and hygiene standards.

Egro Zero+ provides a cleaning system which guides users through the procedure. The user may rapidly and easily activate the complete cleaning cycle (6 minutes) with hot water and detergent by following the instructions as they appear on the display. The spout can be easily removed and cleaned.

E MILK LINE RINSING

A standard feature of the Zero+ Quick-Milk PRO is the cold rinsing cycle of the milk circuit, followed by a blow out with air.

EASY ACCESS TO ALL COMPONENTS

Easy access to the main internal components to facilitate maintenance operations and ensure high reliability.

RINSING CYCLE

A rinsing cycle start automatically at a preset time after the last beverage delivery.

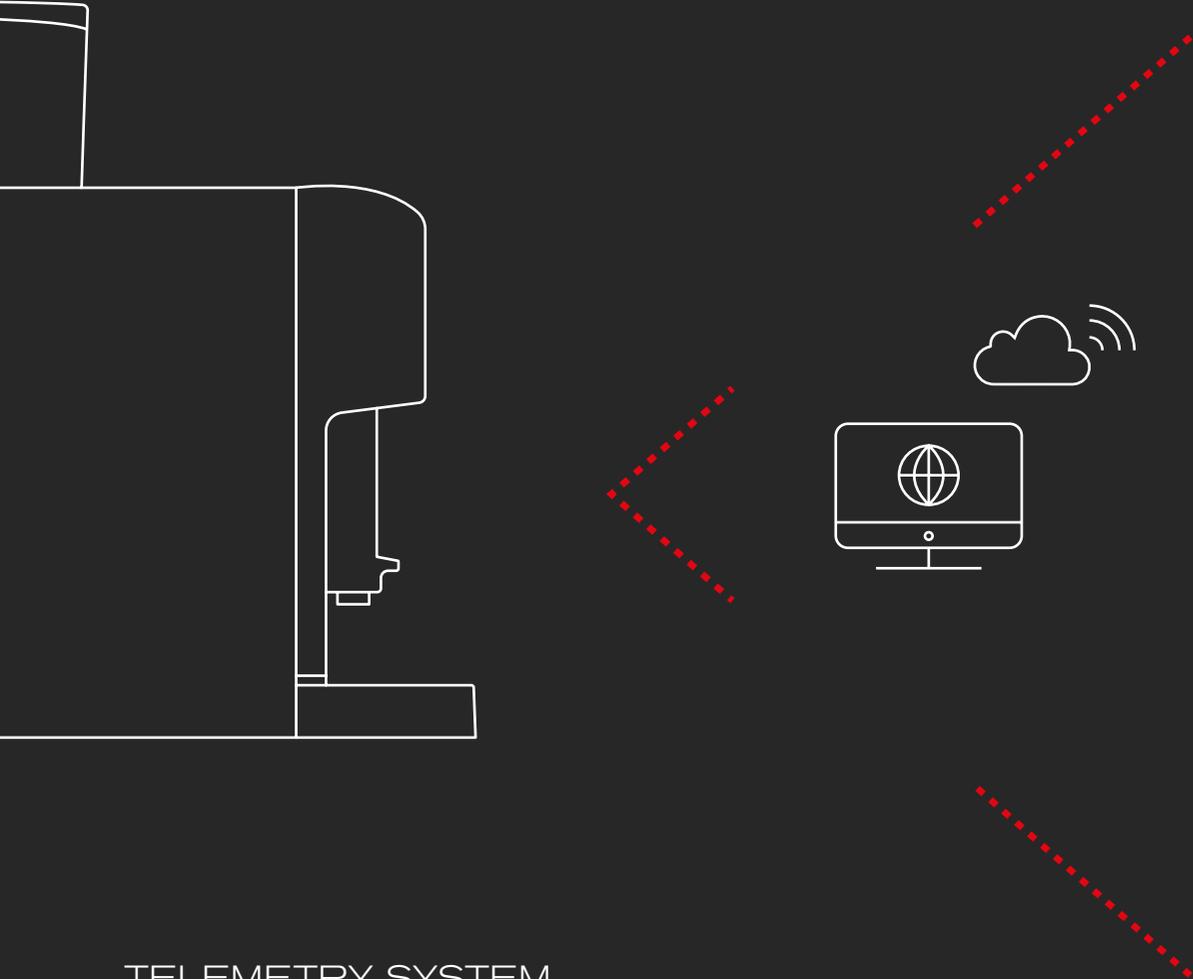

E DURA BREW

The brewing unit is equipped with Dura Brew, the hermetic sealing system that reduces maintenance costs and the total cost of ownership.

USB PORT

Zero+ comes with a USB port to transfer technical data and upload images and videos.

CONNECT

TELEMETRY SYSTEM

Connect: a remote telemetry system to adjust all the parameters, check statistics and ensure optimal functionality.

TIME TO CONNECT

Connect is a remote telemetry system to monitor all the operations performed by a single coffee machine or by a whole set of machines. Thanks to Connect, you can adjust the settings for coffee delivery, analyse consumption statistics and read any messages related to technical assistance and maintenance.

BENEFITS

1

JUST-IN TIME CONTROL

2

REDUCED SERVICE COSTS

3
