Two separate boiler for coffee preparation and steam.

0.6 lt/20.3 oz

COFFEE BOILER CAPACITY

0.6 lt/20.3 oz

STEAM BOILER CAPACITY

STEAM, WATER & MILK

+ STEAM ----- WATER -----

COOL TOUCH STEAM WAND

The Cool Touch steam wand can be handled in safety and comfort.

WATER WAND

The separate water wand is extendable to suit all the operator's needs and it is possible to deliver water while brewing coffee.

+ MILK -----

QUICK MILK PRO

For those locations offering a wide variety of milk-based beverages on their menu, Egro LAB has developed Egro Zero+ Quick-Milk PRO, a version fitted with an innovative milk system.

Thanks to the new pump module, located inside the fridge, the Quick Milk PRO ensures top quality milk-based drinks, allowing to adjust milk temperature and frothing levels for each beverage.

+ EXTRA-LARGE -----

EXTRA-LARGE COFFEE-BASED BEVERAGES

The volumetric pump on the Egro Zero+ is perfect for the rapid and non-stop preparation of all Extra-Large coffee-based beverages.

SMART INTERFACE

INTERFACE

The Egro ZERO+ menu enables the configuration and setting of 16 different beverages plus hot water and steam. It is possible to personalize the label and the description of each beverage. The menu is available in 11 languages, including Russian, simplified Chinese, traditional Chinese, Japanese and Korean.

THREE ACCESS LEVELS

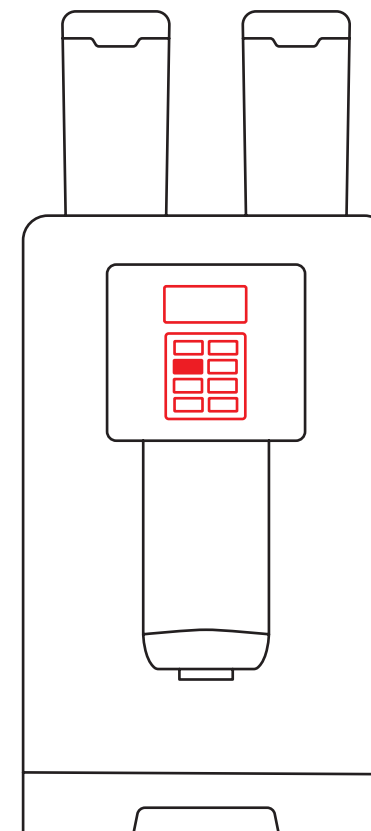

Three dedicated menus offer baristas, managers and technicians the best user experience for their needs.

SELF-SERVICE MODE

Customers can prepare one drink at a time on their own, without the support of the staff.

BACKLIT TOUCHPAD

The user interface is intuitive and equipped with a backlit touchpad.

JAPANESE AND KOREAN.

DESIGN & ERGONOMICS

Egro Zero+ is compact and powerful, easy to use and designed with top-quality components for total high reliability.

SPACE-SAVING DESIGN

Compact footprint: main unit and powder system in just 33 cm width.

33 cm/12.9 in

MAIN UNIT WIDTH

LED LIGHTS

Maximum visual comfort thanks to LED lights on the work area.

STAINLESS STEEL TRAY

In the self-service setup, the stainless steel tray is easy to remove and clean and has two different cup-placing positions, to ensure that any type of cup is always placed correctly under the brewing spout.

AUTOMATIC SPOUT

Adjusts the height of the brewing spouts to suit the drink selected and fit the type of cup being used. The spout is easy to remove for cleaning.

ADD-ON

Expand your horizons by adding a range of modules and optional equipment to your Egro Zero+.

x4

ADD-ON OPTIONS

QUICK MILK FRIDGE

Stylish, practical 4 litre Quick Milk Fridge with a brushed stainless steel door.

FRIDGE UNDER MACHINE (FUM)

The FUM 4-litre fridge can be placed right below the machine for best space optimization.

CUP WARMER

External cup warmer with adjustable temperature level and three heatable trays.

PAYMENT SYSTEMS

Enjoy utmost flexibility with a range of standard and optional payment system solutions.

CLEANING & MAINTENANCE

CLEANING

Fast and simple cleaning makes it easy to uphold high health and hygiene standards.

Egro ZERO+ provides a cleaning system which guides users through the procedure. The user may rapidly and easily activate the complete cleaning cycle (6 minutes) with hot water and detergent by following the instructions as they appear on the display. The spout can be easily removed and cleaned.

E MILK LINE RINSING

A standard feature of the Zero+ Quick-Milk PRO is the cold rinsing cycle of the milk circuit, followed by a blow out with air.

EASY ACCESS TO ALL COMPONENTS

Easy access to the main internal components to facilitate maintenance operations and ensure high reliability.

RINSING CYCLE

A rinsing cycle start automatically at a preset time after the last beverage delivery.

E DURA BREW

The brewing unit is equipped with Dura Brew, the hermetic sealing system that reduces maintenance costs and the total cost of ownership.

USB PORT

Zero+ comes with a USB port to transfer technical data and upload images and videos.

CONNECT

TELEMETRY SYSTEM

Connect: a remote telemetry system to adjust all the parameters, check statistics and ensure optimal functionality.

TIME TO CONNECT

Connect is a remote telemetry system to monitor all the operations performed by a single coffee machine or by a whole set of machines. Thanks to Connect, you can adjust the settings for coffee delivery, analyse consumption statistics and read any messages related to technical assistance and maintenance.
